Front-end web developer with over a year of experience building and optimizing web applications using React and its ecosystem. Specialized in developing internal solutions to improve productivity, organization, and operational efficiency. I'm looking to apply my technical skills to contribute to challenging projects and continue my professional growth.

PROFESSIONAL EXPERIENCE

INAMUJER   **Caracas,Venezuela**
Front-End Web Developer   *September 2023 – January 2025*

- I led the design and development of an intranet-style web application for managing institutional activities nationwide. The platform includes modules for registration, query, scheduling, user management with roles and access control, and a statistics dashboard with graphs and tables for decision-making.
- I implemented the PDF report generation functionality to systematize attendance and activity data.
- I developed an application for creating institutional ID cards with QR codes, improving security and verifying employee identity.
- I created a web application for employee attendance control, streamlining recording and reporting.
- I collaborated in the improvement and maintenance of other institutional web systems, applying technologies such as Vanilla JS, HTML, CSS, Bootstrap and Vue.js.

EDUCATION

UNIVERSIDAD NACIONAL EXPERIMENTAL DE LA GRAN CARACAS   **Caracas, Venezuela**
Computer Engineering (In progress - 6th semester)
Expected graduation date: July 2027

UNIVERSIDAD NACIONAL EXPERIMENTAL DE LA GRAN CARACAS   **Caracas, Venezuela**
Higher University Technician in Computer Science
Completed in July 2025

ADDITIONAL SKILLS

- **Teamwork:** I value collaboration and communication. I am convinced that working together leads to better results and a more positive work environment.
- **Effective Communication:** Communication is the key to success in the technology world. I always strive to be clear and concise in my interactions, ensuring that ideas are shared and understood effectively.
- **Problem Solving:** I have a strong ability to identify and solve problems. I enjoy the challenge of debugging code and finding solutions to complex problems.
- **Strategic Use of AI:** I apply artificial intelligence tools to improve productivity and quality in software development. My focus is on responsible use, researching and validating the generated solutions to ensure they are correct and reliable.
